

HERNING KOMMUNE

HERNING - HOME OF SPORT EVENTS

It's fun, exciting and good business to host large scale sport events.

For more than a decade The City of Herning has pursued a deliberate strategy to attract international championships and sport events to the municipality.

The aim is to create a pulsating community that is attractive for resident, a sense of pride in our area, to attract attention to the many spectacular sights, businesses and services that our area offers - and to stimulate the local economy with revenue to shops, restaurant, taxicabs, hotel, bars and numerous other support-services.
